

## **Discipline**

**We see discipline as a means of helping children learn to use self-control and to cooperate with peers and teachers through appropriate behavior. Our discipline will be approached proactively with a positive attitude.**

### **Rewards:**

Special activities, positive comments, stickers, treasures, notes home, special recognition, incentives, and HUGS.

### **Consequences:**

Redirection, loss of a privilege, "Time away" from group, and/or parent notification.

### **Daily Communication - Folders:**

Your child's work will be sent home daily. By checking your child's folder daily and talking with your child about the activities that they accomplished, you are opening up conversation about their day and letting your child know that their work is important. General communication i.e. calendars, field trip notices, etc. will be sent via email and put on our website unless you request otherwise.

\*Your child's specific progress/behavior will be noted on a student behavior chart as needed.

## **Family Involvement**

The success of your child in school requires a team effort. **We believe that you as the parent are your child's first and most important teacher.** With the conscientious effort of the teacher, parent and the student, your child can attain both academic and social growth. Remember that your positive attitude and support for what is happening in school will help make this a very positive and successful year and help ease any separation anxiety.
